SUMMARY

My career has solidified my motivation for the end user while; working in small non-profits has built a repertoire of doing whatever it takes to get the job done. As a web developer, I am proficient in LAMP, MEAN and Ruby on Rails with the ability to develop web applications from concept to implementation. Experienced with user research, testing and development. I have a great deal of passion for Front End development, client involvement/focus and working with an open and driven team.

TECHNICAL TOOLBOX

Languages:	HTML5, CSS3, SQL, PHP, JavaScript
Preprocessors:	Sass, Jade
Libraries and Frameworks:	Angular JS, jQuery, Bootstrap, CodeIgniter, Express.js, Socket.io, Ruby on Rails, AJAX

PROFESSIONAL EXPERIENCE

Web Developer, May 2015 – *Present*

Freelance

- Web design and development.

Team Lead, Mar. 2013 – *Feb. 2015*

Project Access Northwest, Seattle, Washington

- Assisted with data base development through hands on user experience and research. Was part of the super user implementation group assisting with program rollout. Continuously monitored and communicated database user experiences and troubleshooting with IT support and data base vendor.
- Met with case management teams to discuss daily tasks and monthly goals. Closely supported the Program Director by maintaining daily planning and operations to ensure high levels of efficiency and customer service within the organization.
- Assisted with the screening, hiring and training of new staff while managing the day-to-day operations of the case management team.
- Coordinated new strategies and process improvements. Communicated and execute process changes to internal and external care teams. Compiled monthly, quarterly and annual reports showing the success and growth of all programs.

Case Manager II, May 2010 – *Feb. 2013*

Project Access Northwest, Seattle, Washington

- Restructured dental program's case management process to increase efficiency. Increased client referral numbers by 1,200% over 2 years.
- Scheduled high volumes of medical and dental appointments across multiple counties for uninsured and Medicaid clients. Daily data entry of incoming referrals, medical chart notes, enrollment applications, and clinical records requests.
- Communicated with clients, vendors, clinical staff, and program partners through email, phones, written mail, and in person. Developed numerous case management training materials. Conducted program evaluations. Experienced with Lean methodology.

Eligibility and Enrollment Specialist, Jun. 2008 – *Apr. 2010*

Coalition of Community Health Clinics, Portland, Oregon

- Processed all patient applications, enrollments and denials. I was responsible for the coordination of patient to provider assignments, patient orientations, surveys, appointments, and interpretive services. Assisted patients access health resources via phone and email correspondence, while complying with HIPAA guidelines to ensure the security of patient confidentiality. Supported programs through data management and reporting, quality assurance, website editing and improvements.
